💼 Experience

Eskill Web Service
Oct, 2023 - Current
MERN Stack Developer (Intern)

- Seeking an internship opportunity as a MERN Stack Developer with practical experience in HTML, CSS, JavaScript, React, Express.js,Node.js and MongoDB technologies.

- Eager to apply and expand my skills in a professional environment while contributing to impactful projects.

- Quick learner, adaptable, and committed to delivering high-quality code and innovative solutions.

Projects

TastySlice
Developed a responsive pizza ordering application using HTML, CSS, Bootstrap, React, and Redux Toolkit, featuring a menu display, pizza customization options, a shopping cart, and a checkout process with order confirmation.

TicketEase
Developed a responsive ticket raise application using HTML, CSS, React, Redux-toolkit, Bootstrap, Node.js, Express.js and MongoDB. Implemented user authentication, real-time updates, and an admin panel for comprehensive ticket management. Created a secure, RESTful API to handle all ticket operations.

CryptoCaddy
This crypto app fetches real-time data from an API to provide up-to-date information on cryptocurrency prices, trends, and market insights. Users can securely authenticate and access personalized features and add coins to their cart for analysis.
